O que é ScienceDirect?

ScienceDirect

- ScienceDirect é a base de dados de textos completos revisados por pares da Elsevier que contém cerca de 22.000 títulos de livros, mais de 2.500 títulos de revistas científicas e 900 outras publicações seriadas nas áreas de Ciência, Tecnologia e Medicina.
- ScienceDirect contém mais de 25% de toda a informação científica publicada mundialmente;
- Usada por mais de 15 milhões de pesquisadores;
- Mais de 13.000 instituições acessam a base mundialmente;
- Atualizada diariamente.

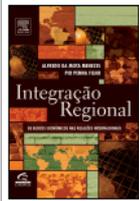

- Aproximadamente 2.300 títulos da coleção de revistas está disponível no Portal de Periódicos CAPES.
- Mais de 12 milhões de artigos em texto completo
 - Artigos retrospectivos (Backfiles) datados desde o ano de 1823;
 - Acesso eletrônico a artigos aprovados à espera de ser publicado na versão impressa (Articles in Press)

- Grande coleção de livros eletrônicos em 22 áreas do conhecimento
 - Livros eletrônicos (monografias) - a fonte preferencial para a criação de conhecimento básico essencial e o aprendizado em novas áreas;
 - Obras de Referência - o ponto de partida ideal para a pesquisa;
 - Séries de Livros e Séries de Manuais - o complemento perfeito para pesquisas anteriores, da biblioteca ao laboratório.

- Benefícios dos e-Books do ScienceDirect para usuários e bibliotecários:
 - Plataforma multiusuário sem limites de acesso, download, impressão - maior facilidade para usuários.
 - Formato PDF, e-pub ou mobipocket (acesso e leitura em e-Readers, Tablets, SmartPhones).
 - Busca totalmente integrada com os periódicos do ScienceDirect - tudo em uma única plataforma.
 - MARC 21 gratuitos para adicionar os livros ao catálogo online – mais praticidade para a biblioteca

- Interface fácil e intuitiva;
 - Fácil navegação pelos títulos disponíveis;
 - Vários recursos de busca pelo conteúdo .
- Refinamento da busca na página de resultados;
- Impressão de qualquer artigo no formato PDF;
- Exibição do texto completo em formato HTML – com links que facilitam a navegação e permitem acesso a mais conteúdo;
- Download das citações bibliográficas e resumos para programas de gerenciamento de referências (Ex. Mendeley);
- Arquivos multimídia incluídos nos artigos (vídeos, áudio, planilhas de cálculo, arquivos complementares);
- Busca por imagens.

Um pouco da teoria de integração

Antes da análise das várias tentativas de integração econômica em andamento, talvez seja interessante entender o significado e as alternativas desse novo fator nas relações internacionais. Na primeira parte dessa análise, são mostrados alguns dados teóricos sobre integração econômica. Em uma segunda etapa, como um exemplo prático ligado ao lado teórico, mostram-se a história e os problemas encontrados pela Associação Latino Americana de Livre Comércio, Alalc, uma antiga tentativa de integração regional que, por motivos diversos, acabou não prosperando.

As opiniões e interpretações variam quanto ao conceito de integração. Para alguns, a integração econômica

Um pouco da teoria de integração

Antes da análise das várias tentativas de integração econômica em andamento, talvez seja interessante entender o significado e as alternativas desse novo fator nas relações internacionais. Na primeira parte dessa análise, são mostrados alguns dados teóricos sobre integração econômica. Em uma segunda etapa, como um exemplo prático ligado ao lado teórico, mostram-se a história e os problemas encontrados pela Associação Latino Americana de Livre Comércio, Alalca, uma antiga tentativa de integração regional que, por motivos diversos, acabou não prosperando.

As opiniões e interpretações variam quanto ao conceito de integração. Para alguns, a integração econômica se verifica quando os preços de todos os produtos iguais são equiparados em uma dada região. Haveria um só mercado em que se cobraria o mesmo preço para o mesmo bem. Para outros, a integração seria simplesmente a eliminação de barreiras econômicas entre duas ou mais economias. Um terceiro entendimento vê a integração como resultado da eliminação de todos os impedimentos para o comércio entre mais de um país e que, além disso, haja alguns mecanismos de coordenação geral nas economias integradas; o principal sinal da integração entre países seria a inexistência de alfândegas e postos de cobranças entre os parceiros integrados. Outros argumentam ainda que integração econômica é nada mais do que a divisão do trabalho em uma região.

ABSTRACT

The severity of injury from vehicle crash is a result of a complex interaction of factors related to drivers' behavior, vehicle characteristics, road geometric and environmental conditions. Knowing to what extent each factor contributes to the severity of an injury is very important. The objective of the study was to assess factors that contribute to crash injury severity in Ethiopia. Data was collected from June 2012 to July 2013 on one of the main and busiest highway of Ethiopia, which extends from the capital Addis Ababa to Hawassa. During the study period a total of 819 road crashes was recorded and investigated by trained crash detectors. A generalized ordered logit/partial proportional odds model was used to examine factors that might influence the severity of crash injury. Model estimation result suggested that, alcohol use (Coef. = 0.5565; *p*-value = 0.017), falling asleep while driving (Coef. = 1.3102; *p*-value = 0.000), driving at night time in the absence of street light (Coef. = 0.3920; *p*-value = 0.033), rainfall (Coef. = 0.9164; *p*-value = 0.000) and being a minibus or vans (Coef. = 0.5065; *p*-value = 0.013) were found to be increased crash injury severity. On the other hand, speeding was identified to have varying coefficients for different injury levels, its highest effects on sever and fatal crashes. In this study risky driving behaviors (speeding, alcohol use and sleep/fatigue) were a powerful predictor of crash injury severity. Therefore, better driver licensing and road safety awareness campaign complimented with strict police enforcement can play a pivotal role to improve road safety. Further effort needed as well to monitor speed control strategies like: using the radar control and physical speed restraint measures (i.e., rumble strips).

© 2014 Published by Elsevier Ltd.

1. Introduction

Severity of an injury is the result of a complex interaction between several factors representing driver and other road users, road characteristics, vehicle defect and design, and environmental characteristics including weather condition and light (Mondal et al., 2011; Thompson et al., 2013). Understanding to what extent each factor contributes to the severity of crash related injury is one of the most effective means to improve highway safety.

The human factor appears in the literature as being the most common determinants of road safety. Demographic characteristics:

male, younger and older drivers are more likely to be involved in death and severe injury crashes (Dissanayake and Lu, 2002; Helai et al., 2008; Shope and Bingham, 2008; Haleem and Gan, 2013). As indicated by many researchers the strongest association of crash injury severity are related to behavioral factors, including: alcohol/drug use (Kuruc et al., 2009; Tsui et al., 2010; Ponce et al., 2011; Hels et al., 2013); speeding (Dissanayake and Lu, 2002; Afukaar, 2003); failure to wear seat belts (Munk et al., 2008; Siskinda et al., 2011; Kashani et al., 2012); using mobile phone while driving (Violanti, 1998) and sleep/fatigue (Radun and Summala, 2004). Speeding is a critical safety concern, especially for developing countries, where fatalities are more common among pedestrians and users of two- and three-wheelers (Mohan, 2002). Fatigue crashes are usually severe, as the driver makes no attempt to limit the consequence (Radun and Summala, 2004). Such types

- Is body mass human capital in sumo? Outcome of globalization and formation of human capital in Japan Original Research Article
Journal of the Japanese and International Economies, Volume 31, March 2014, Pages 53-71
Eiji Yamamura

Abstract | Close research highlights | PDF (423 K)

Highlights

- Dataset was used for all sumo wrestlers in the post-World War II period.
- This paper investigates how BMI is associated with wrestlers' performance.
- There is no positive relation between the BMI and winning rate.
- There is a positive relation between the BMI and absence rate in the latter period.

- International Remittances and Human Capital Formation Original Research Article
World Development, Volume 69, July 2014, Pages 224-237
Vania B. Salas

Close abstract | Research highlights | PDF (372 K)

Summary

Citing articles (0)

This article investigates the effect of international migration on children left behind in Peru. The theoretical model is based on human capital theory and educational investment decision linked to remittances. The model analyzes the role of international remittances on the investment decision between sending children to a public school or to a private school. Using data for the period 2007–10, this study addressed the problem of a left-censored endogenous variable for panel data by using a two-step estimation, and found that international remittances have a positive effect on the likelihood to send children to private schools controlling for absenteeism of parents.

"Dicas de Truncagem"

- Para procurar uma frase específica, coloque os termos entre aspas ("").
Por Exemplo: na busca por documentos a partir da expressão "kidney disease", caracteres como hífen, ponto, vírgula, etc. são ignorados, ou seja, os resultados na busca por "kidney disease" são os mesmos quando faço por "kidney-disease". O resultado de busca com aspas incluem também termos no plural e no singular.
- Buscar por uma correspondência exata, chaves ({}).
Por Exemplo: na busca por documentos a partir da expressão ({kidney disease}), caracteres como hífen, ponto, vírgula, etc. são considerados, ou seja, na busca por {kidney disease?} a interrogação é incluída na busca. O parênteses entre as chaves e a expressão é obrigatória no *Expert search*.
